

TEACHER KEY

Using the Belkin Device Grading Rubrics

Using the Belkin Device

Does the student demonstrate:

- The correct order of connection for the devices?
- How to adjust the Belkin display to test for watts?
- How to take a reading from the device correctly?

If yes to all = 100

Subtract 5 points for each reminder or prompting the student needs to complete the task successfully.

Belkin Device Measurement Worksheet

5 or 100	4 or 90	3 or 80	2 or 70	1 or 60
Sheet is filled in neatly and easy to read; brands and models are completed in addition to the on and off readings from the meters	Sheet is filled in relatively neatly; some of the brands and models have been filled out; all readings recorded	Sheet is filled in; a few brands and models are listed, but it's mostly just a list of the readings	Just the readings; no brands or models are listed. (Or a few brands or models are listed, but readings are incomplete.)	No brands or models listed at all; 3 or less readings completed
