Please read the descriptions of each of the levels of use of technology. Choose the stage that best describes your level.

Stage 1: Awareness

I am aware that technology exists but have not used it - perhaps I'm even avoiding it. I am anxious about the prospect of using computers

Stage 2: Learning the process

I am currently trying to learn the basics. I am sometimes frustrated using computers. I lack confidence when using computers.

Stage 3: Understanding and application of the process

I am beginning to understand the process of using technology and can think of specific tasks in which it might be useful.

Stage 4: Familiarity and confidence

I am gaining a sense of confidence in using the computer for specific tasks. I am starting to feel comfortable using the computer.

Stage 5: Adaptation to other contexts

I think about the computer as a tool to help me and am no longer concerned about it as technology. I can use it in many applications and as an instructional aid.

Stage 6: Creative application to new contexts

I can apply what I know about technology in the classroom. I am able to use it as an instructional tool and integrate it into the curriculum.
