Curriculum Overview

Project Timeline

Project Teacher Tasks

Lesson One: Introduction

Lesson One: Resources

Electricity Safety Presentation (ppt)

Safety First Hand-out

Parent and Student Consent Forms

Electricity Safety Quiz

Safety Certificates

Lesson Two: Why Should We Conserve Power?

Lesson Two: Resources

Student Definitions Worksheet

Global Climate Change Presentation (ppt)

Getting to the Core activity sheets

Modeling the Greenhouse Effect Activity

Lesson Three: Electricity Basics

Lesson Three: Resources

Electrical Energy Presentation (ppt)

Energy Production Worksheet

Plug-in appliance Inventory

Vocabulary Jeopardy (ppt)

Energy Quiz

Lesson Four: Whyville

Lesson Four: Resources

Exploring STEM Careers

Lesson Five: Standby Power

Lesson Five: Resources

Standby Power Notes

Standby Power Worksheet

Belkin Measurement Class Worksheet

Lesson Six: Using the Belkin Meter

Lesson Six: Resources

How-to Guide for Using Belkin Monitors

How Much is it Using? Belkin Energy Monitoring Sheet and
Belkin Protocol

Lesson Seven: Analyzing Data

Lesson Seven: Resources

Class Level Spreadsheet Template and Example

Lesson Eight: How Can We Conserve Power?

Lesson Nine: Educating Others: Sharing What We Learned

Student Information Packet
