

Modeling the Greenhouse Effect

- Sketch the lab set up and explain, with your labels, a paragraph, or short video how it relates to the greenhouse effect in Earth's atmosphere.

100	90	80	70	60
Explanation correctly links all parts of the lab to Earth. The student's understanding of the greenhouse effect is clear and complete.	Explanation links most of the parts of the lab to Earth. The student's understanding is may be somewhat unclear or incomplete, but there are no inaccuracies.	Explanation links many of the parts of the lab to Earth. The student's understanding is partially correct, but contains some inaccuracies or is very unclear.	Explanation links few of the parts of the lab to Earth correctly. The student's understanding is very unclear and/or contains large inaccuracies.	Please review the information and try again.
